

Ping Voice Pairing

KB0012013

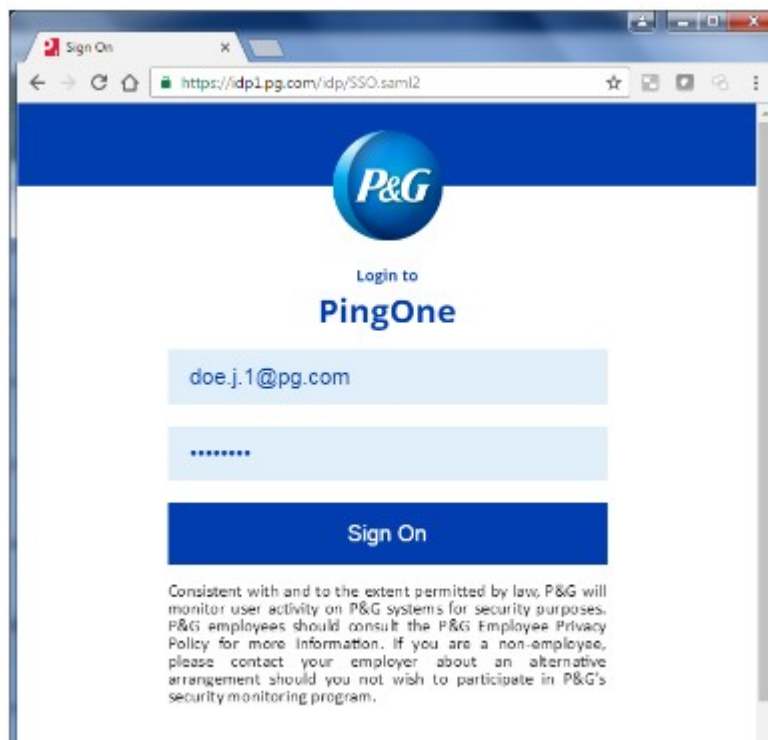

👤 Authored by Eduardo Castro • 👁 31 Views • 📅 Updated about a month ago 🖨

You are allowed to use personal devices for PING. You can also include your P&G office phone as one of the options.

Available Translations:

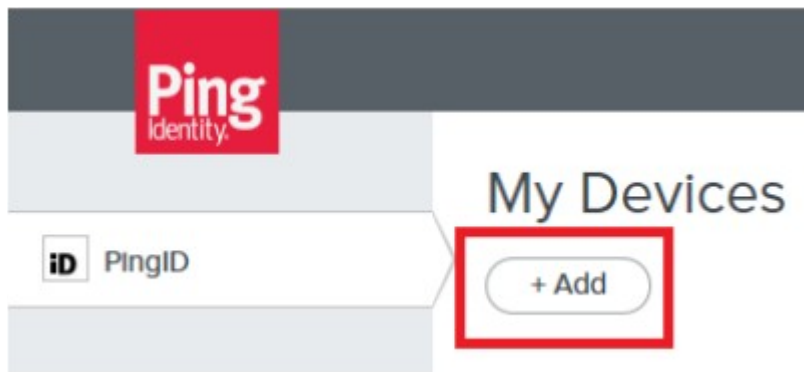

- Deutsch
- Español (Latinoamérica)
- Français
- Italiano
- 日本語
- Português (Brasil)
- русский
- 简体中文

1. Go to <http://ping.pg.com> and login with your P&G Intranet ID and password.

2. Use your Ping desktop app to generate a code, and complete the login and reach the Ping dashboard. If you haven't configured/paired your Ping desktop app yet, visit [here](#) for instructions.

- Under **My Devices** click on **Add**.

- Click on the **Voice icon** under "Other Authentication Methods".

- Select your country from the drop down list and enter your mobile number without the country code and click **Next**.

Voice

Please enter the phone number you wish to authenticate with.
