- 简体中文

Install PING mobile app

- **iOS (iPhone/iPad):** Open this link on your mobile to install Ping mobile app on your iOS device . Alternatively you may search "PingID" app on App Store on your mobile.
- **Android:** Open this link to install Ping mobile app on your Android device.

Configure / Pair PING mobile app

1. Go to http://ping.pg.com/ and login with your P&G Intranet ID and password.
2. Use your Ping desktop app to generate a code, and complete the login and reach the Ping dashboard. If you haven't configured/paired your Ping desktop app visit here for instruction.
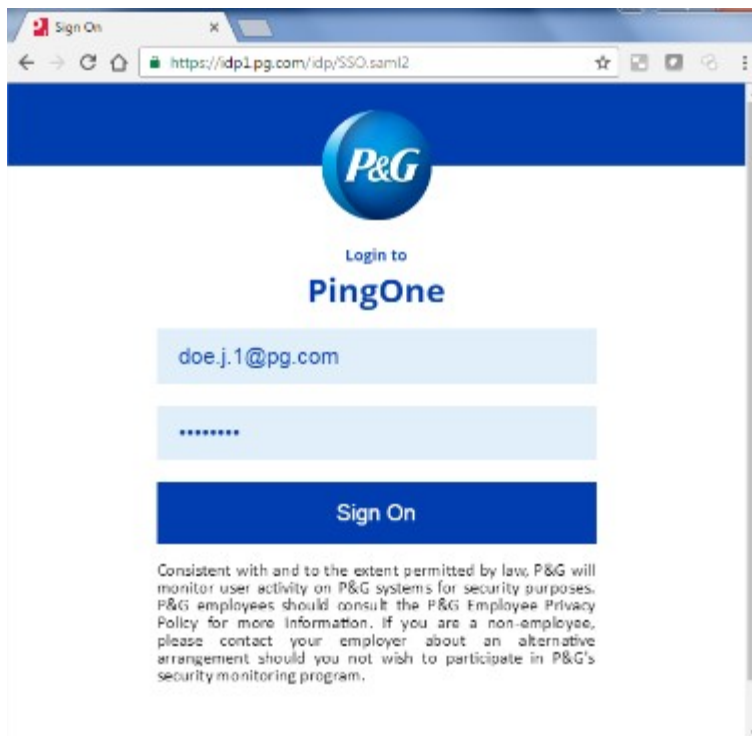

3. Under **My Devices** click on **Add**
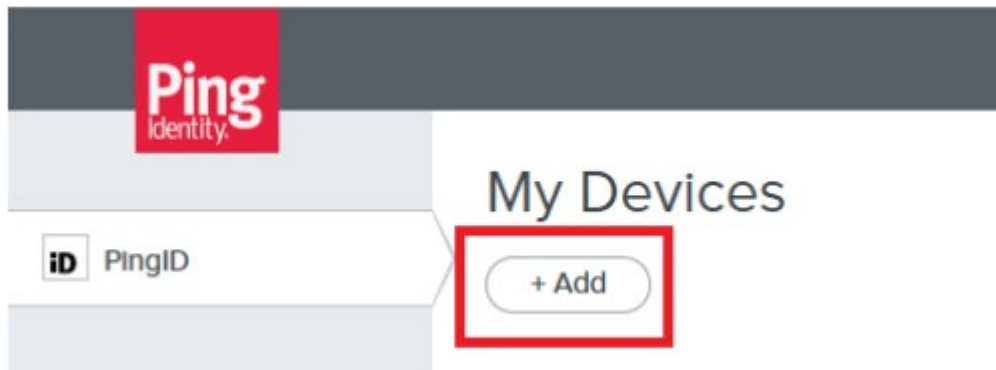

4. Scan the barcode that comes up with your newly installed Ping Mobile App on your mobile (see step 1a/b). Alternatively you may manually enter the Pairing Code on your Ping Mobile App.

Add a New Device

PingID Mobile Application

For the best experience, Install PingID and scan the QR code to pair your mobile device. You can also enter the pairing code manually when required.

Pairing Code: **3352 5938 0141**

Available for **iPhone & iPad**   Available for **Android**

Other Authentication Methods

SMS   Voice   Desktop
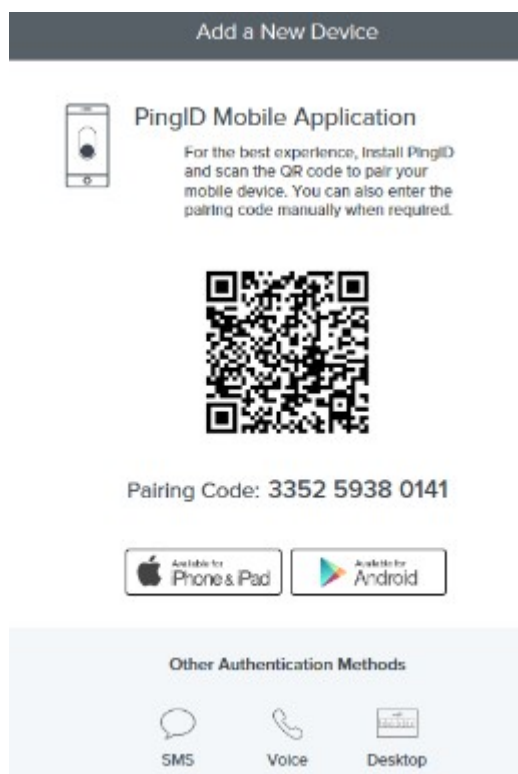

5. On the Ping ID Mobile App, enter your nick name to complete your profile.
6. Go back to http://ping.pg.com and refresh the dashboard page if needed. You should now see "mobile" on your paired "My Devices" list. From this dashboard you can also modify or delete your primary, secondary devices and also add additional devices, if you wish to change these at a later time.

Click on icons below to pair additional devices as your back up:

Laptop App   **Mobile App**   **SMS**   **Voice Call**
